There was no objection.

RECOGNIZING ALAN JENNINGS

(Ms. WILD asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. WILD. Madam Speaker, I rise to recognize Alan Jennings, a constituent of mine and a very good friend, who has spent decades working to weed out hunger and poverty in my community.

Alan joined the Community Action Committee of the Lehigh Valley, CACLV, as a young man in 1980. For the past 30 years, he has served as the executive director of the agency, touching countless lives, challenging barriers of race and bias, and working to expand diversity in the nonprofit sector.

Now Alan is stepping down to get some much-needed rest after a lifetime of hard work.

Under Alan's leadership, CACLV's funding has increased 30-fold. His entire life's work has been about building a just and equitable society for all.

From providing food to hungry families to raising funds for low-income and working-class kids to be the first in their families to go to college, Alan has lived the mission of community action every single day.

Alan, on behalf of the people of the Seventh District, thank you for your extraordinary leadership. We are so grateful to you. As you begin a new chapter, I join people in every corner of our community in wishing you the very best.

AMERICAN FRONTLINE WORKERS
HAVE ANSWERED THE CALL OF
DUTY

(Mr. KELLER asked and was given permission to address the House for 1 minute.)

Mr. KELLER. Madam Speaker, throughout American history, generations of American frontline workers have answered the call of duty to support our Nation, States, and local communities.

From those in the factories who fueled the Allied advance in World War II to the men and women who cleared the rubble after the attacks on September 11, there is a strong, storied reference that comes with being a frontline worker.

Today, across Pennsylvania's 12th Congressional District and America, our nurses, doctors, and healthcare providers are answering that call of duty.

In the face of a once-in-a-lifetime pandemic and global uncertainty, our healthcare professionals have not wavered in their mission, exemplifying compassion, determination, and resilience. Most importantly, our healthcare workers have given our Nation reassurance that we can defeat this virus.

To PA-12's frontline healthcare workers at Evangelical Community Hospital, UPMC, Geisinger, Endless Mountains, Bucktail Medical, Robert Packer, Guthrie Towanda Memorial, Troy Community, Divine Providence, Mount Nittany, Barnes-Kasson, and Tyler Memorial, I know your job is not easy, but your impact is felt throughout our community and across our Nation. Please know that we are forever grateful for your service.

UNITED STATES FOSSIL FUEL
INDUSTRY

(Mr. CASTEN of Illinois asked and was given permission to address the House for 1 minute.)

Mr. CASTEN of Illinois. Madam Speaker, imagine that you are a banker reviewing a corporate loan application. Over the last decade, competition has eroded this company's market share. They slashed prices in response; they burned through their cash. 250 similar companies have gone bankrupt since 2014.

Would you make that loan?

This is today's U.S. fossil fuel industry. Since 2010, coal demand is down 45 percent. Natural gas prices are down 40 percent. Oil prices are down 45 percent. Shale producers have chewed through \$342 billion of free cash flow. Exxon just wrote off \$20 billion in value. Wells Fargo booked \$121 million in sector losses.

And yet, the Office of the Comptroller of the Currency has recently proposed a rule to mandate that banks provide "fair access to capital" to this sector. They would force you to use your balance sheet to take on excessive risk without commensurate return. They would reduce our financial stability and raise our energy costs.

I look forward to a full-throated and bipartisan condemnation of the OCC's attempt to use, dare I say, socialist tools to prop up an industry that is unable to succeed in the rough-and-tumble world of free-market capitalism.

HONORING THE LIFE AND SERVICE
OF WANDA MOODY

(Mr. BURCHETT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BURCHETT. Madam Speaker, late last week, east Tennessee said goodbye to a beloved member of our community, Wanda Moody, a close, dear friend of mine, and mentor, who led incredible careers in the field of public service and education. She passed away on Sunday at the age of 91.

Wanda was a strong, tough leader who spent her entire life making east Tennessee a better place, Madam Speaker. Wanda was a lifelong educator and early advocate for special education.

In the late 1980s, after leaving the city school system, she fought to expand special education initiatives as an assistant commissioner of education under then-Governor LAMAR ALEXANDER. She later served a similar role developing special education programs for the City of Knoxville under then-Mayor Kyle Testerman.

Wanda's success compelled her to run and win a seat on the Knox County Commission in 1986. She was one of the first women to serve on that legislative body.

During her three decades as a Knox County Commissioner, Wanda asked tough questions and painstakingly reviewed budgets and financial documents. She wasn't shy of speaking up for increased government accountability and transparency, Madam Speaker.

Wanda led the charge on many reforms that continue to influence Knox County government to this day. Even after leaving public office in 2006, Wanda remained active and influential in our community.

Wanda was one of my oldest friends, and her mentorship will forever influence my public service career. Although she will be greatly missed, I am
